DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 4-7, 14, 15, 17, 24, and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Bolton.

The Bolton reference discloses a pen comprising a housing (see Figure 14), a first reservoir 51, a second reservoir 52, a first writing tip 25, a mixing region (portion of transorb 21 at one end of writing tip, see Figure 1), and first and second chemically reactive fluids (see paragraph 71). Regarding claims 5-7, see dyes mentioned in paragraph 71. Regarding claim 14 note that the writing tip 25 and transorb 21 are replaceable via a removable end cap, see paragraph 65. Regarding claim 15, note that placing the chemicals in the separate reservoirs is considered a method of “chemically isolating” the chemicals. Regarding claims 17, 24, and 28, the reaction time between the dye and the eradicator can be determined without undue experimentation, and as such is inherently indicative of the time of dispensing.

Allowable Subject Matter

The indicated allowability of claims 4-7, 14, 15, 17, 24, and 28 is withdrawn in view of the newly discovered reference to Bolton.

Claim 2 is allowed.

Claims 9, 12, 13, 16, 18-20, and 25-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
